## Algebraic Geometry and Number Theory: In Honor of Vladimir Drinfeld's 50th Birthday (Progress in Mathematics)

This book represents a collection of invited papers by outstanding mathematicians in algebra, algebraic geometry, and number theory dedicated to Vladimir Drinfeld. Original research articles reflect the range of Drinfeld's work, and his profound contributions to the Langlands program, quantum groups, and mathematical physics are paid particular attention. These ten original articles by prominent mathematicians, dedicated to Drinfeld on the occasion of his 50th birthday, broadly reflect the range of Drinfeld's own interests in algebra, algebraic geometry, and number theory.

### **From reader reviews:**

#### **Brian Wilson:**

Do you have something that you like such as book? The reserve lovers usually prefer to select book like comic, short story and the biggest an example may be novel. Now, why not trying Algebraic Geometry and Number Theory: In Honor of Vladimir Drinfeld's 50th Birthday (Progress in Mathematics) that give your enjoyment preference will be satisfied by means of reading this book. Reading practice all over the world can be said as the way for people to know world far better then how they react in the direction of the world. It can't be explained constantly that reading behavior only for the geeky man or woman but for all of you who wants to be success person. So , for every you who want to start studying as your good habit, it is possible to pick Algebraic Geometry and Number Theory: In Honor of Vladimir Drinfeld's 50th Birthday (Progress in Mathematics) become your current starter.

#### **Sara Otoole:**

You could spend your free time to learn this book this publication. This Algebraic Geometry and Number Theory: In Honor of Vladimir Drinfeld's 50th Birthday (Progress in Mathematics) is simple to develop you can read it in the park your car, in the beach, train along with soon. If you did not have got much space to bring often the printed book, you can buy the particular e-book. It is make you easier to read it. You can save the particular book in your smart phone. Consequently there are a lot of benefits that you will get when you buy this book.

#### **Ann Lang:**

Is it you who having spare time in that case spend it whole day by watching television programs or just lying down on the bed? Do you need something new? This Algebraic Geometry and Number Theory: In Honor of Vladimir Drinfeld's 50th Birthday (Progress in Mathematics) can be the response, oh how comes? The new book you know. You are so out of date, spending your spare time by reading in this brand-new era is common not a nerd activity. So what these publications have than the others?

#### **Steven Young:**

As a scholar exactly feel bored in order to reading. If their teacher questioned them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's heart or real their hobby. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Algebraic Geometry and Number Theory: In Honor of Vladimir Drinfeld's 50th Birthday (Progress in Mathematics) can make you really feel more interested to read.
