## **Rex Mundi - The King of the World** Michal Deschausses, Michel Nostradamus

We keep striving toward truth that lies deep in the tomes of time and in the consciousness of humankind. There is a base of power in the world that has been hidden for so long that it has been almost impossible to break the seal and understand all of its involvement in world events. Evidence often remains in such obscurity that there have been few facts and from these authors and researchers mostly shy away. However, the understanding of the unified intent of the world kings sheds vast light on the story of Rex Mundi.

If by studying apocalyptic forecast in relation to the future and by understanding the methods by which the forecast is derived we can learn how to reconnect and balance ourselves and the world in which we live to the divine forces we can become whole again..

People still search for meaning in the prophecies of Nostradamus because just as in the holy writings they know that they have yet to grasp the real truth of the in-depth message. Perhaps prophets like Nostradamus are endowed with visions and the wisdom to portray them to help us see our way more clearly. Antichrists can operate and survive only in the realms of shrouded consciousness which are carefully perpetrated over humankind. In the same manner that the Book of Revelation is poured over by seekers, people all over the world turn again and again to the writings of Nostradamus. We have missed something very important in this work, and now is the time to see the value and message in it for humankind.

Nostradamus wrote exclusively and specifically about three world kings who would rise to power resulting from political events beginning in about 1700 A.D. But, even more these aspiring kings of the world enforce their rule on a spiritual level that leads to a battle concerning the lives and souls of all humans. This unique clarification of the enigmatic verse of Nostradamus is the most comprehensive to date and brings forth the first true understanding that each of the surface verses discusses one of three world kings, commonly known as Antichrists. The verses portray prophecies of Nostradamus concerning not only the state of the world in our recent past but also in the near future. Each quatrain of Nostradamus speaks about rampant strategies of one of three world kings who rule as Antichrists. Two of these Antichrists would dominate the human race building conditions for a world throne and socioeconomic control as well as culminating spiritual forces into the Third Antichrist. This is the One destined to fully incarnate the supernatural forces of Satan ultimately torturing humanity in the final war against God bringing the End of Days.

The quatrains relay an important, divine message to humankind and contain highly moralistic, philosophical, and spiritual wisdom which has never been and should not ever be ignored. The primary purpose for Nostradamus' quatrains is to shed light upon written prophecies that were offered to the world in an effort to educate humankind in reference to human iniquities and the effects thereof rendered upon the world in which we live. Even more, the verses were intended to help people reconnect to the Divine seeing that the spiritual world is a reality that we often realize but try to ignore in daily life. Nostradamus devoted his will to the higher understanding of the Divine Plan and was convinced that a critical period in the history of the world was on the horizon. He had an in-depth understanding of the esoteric societies that operated in the ancient world and carried forth their goals under the cloak of secrecy into our modern world. To comprehend the nature of the work of Nostradamus is to comprehend both the material and the spirit world.
