Surviving Pancreatic Cancer: Your Guide to Life Larisa Belote

Surviving Pancreatic Cancer is a story about a 54 year old woman who was given a death sentence of 3 months to live based on the diagnosis. Against all odds, she conquers the disease by going through the most innovative treatment, dietary supplementation and proper nutrition. Empower yourself with knowledge about effective alternative/holistic cancer treatments that are available and make an educated decision rather than surrender to the traditional treatments of chemotherapy, radiation and even surgery that offer little hope. Innovative and alternative treatments may prolong your life, not only to exist, but to live a good quality of life with your loved ones. You will also find a guide that outlines steps to healing your body and building a strong immune system. Great for people who have cancer, recovering or just want to be proactive.
