Timber vs. Composite/Plastic Pile Fender Systems in Pearl Harbor Maintenance Cost Comparison

Joseph Alling

This is a NAVAL POSTGRADUATE SCHOOL MONTEREY CA report procured by the Pentagon and made available for public release. It has been reproduced in the best form available to the Pentagon. It is not spiral-bound, but rather assembled with Velobinding in a soft, white linen cover. The Storming Media report number is A906023. The abstract provided by the Pentagon follows: The Navy has traditionally used treated timber materials for fender systems for piers and wharves in Pearl Harbor. In recent years, the costs associated with the use of timber have escalated and the Navy has begun to use plastic piles at installations around the world to replace timber fender systems. Plastic fender systems are more expensive, but have greater energy absorption capabilities and are more resilient to environmental decay. To determine whether plastic piles are a cost saving alternative to treated timber, the present study compiled and evaluated existing technical data, maintenance/ construction records and inspection reports from various Navy staff civil engineer offices and at the Navy Public Works Center Pearl Harbor (PWC). Since records at these various locations were not designed to present associated cost/ maintenance data in a format suitable for an economic analysis, field surveys of over 3 miles of waterfront in Pearl Harbor and interviews with staff civil engineers and wharf building branch managers at PWC were conducted to supplement existing historical data. Through the gathered data, the maintenance costs of timber pile fenders are estimated and compared to those of composite plastic piles using manufacturers' quotes and from reports compiled by the Navy Civil Engineering Laboratory (NCEL). For the expected life cycles of timber piles observed in Pearl Harbor this analysis shows the proposed plastic system to be more cost effective for shore facilities with remaining service lives of greater than ten years.

From reader reviews:

Beth Stewart:

Have you spare time for just a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity regarding spend your time. Any person spent their spare time to take a stroll, shopping, or went to often the Mall. How about open as well as read a book allowed Timber vs. Composite/Plastic Pile Fender Systems in Pearl Harbor Maintenance Cost Comparison? Maybe it is to get best activity for you. You already know beside you can spend your time with your favorite's book, you can smarter than before. Do you agree with their opinion or you have various other opinion?

Frederica Dawkins:

The book Timber vs. Composite/Plastic Pile Fender Systems in Pearl Harbor Maintenance Cost Comparison can give more knowledge and information about everything you want. So just why must we leave the best thing like a book Timber vs. Composite/Plastic Pile Fender Systems in Pearl Harbor Maintenance Cost Comparison? Some of you have a different opinion about reserve. But one aim which book can give many information for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or information that you take for that, you could give for each other; you could share all of these. Book Timber vs. Composite/Plastic Pile Fender Systems in Pearl Harbor Maintenance Cost Comparison has simple shape but the truth is know: it has great and big function for you. You can look the enormous world by wide open and read a e-book. So it is very wonderful.

Laura Burnham:

Nowadays reading books be a little more than want or need but also become a life style. This reading addiction give you lot of advantages. Advantages you got of course the knowledge even the information inside the book in which improve your knowledge and information. The data you get based on what kind of guide you read, if you want get more knowledge just go with training books but if you want really feel happy read one using theme for entertaining for instance comic or novel. The actual Timber vs. Composite/Plastic Pile Fender Systems in Pearl Harbor Maintenance Cost Comparison is kind of guide which is giving the reader unstable experience.

Irene Carpenter:

A lot of guide has printed but it takes a different approach. You can get it by internet on social media. You can choose the most effective book for you, science, amusing, novel, or whatever simply by searching from it. It is referred to as of book Timber vs. Composite/Plastic Pile Fender Systems in Pearl Harbor Maintenance Cost Comparison. You can add your knowledge by it. Without leaving behind the printed book, it could possibly add your knowledge and make you actually happier to read. It is most significant that, you must aware about reserve. It can bring you from one destination to other place.
