After attending numerous CME's, volunteering in many health screening camps, engaging in intellectual healthcare discussions, and assisting a number of Physicians in their efforts to implement EHR/participate in the EHR incentive program.....I have repeatedly heard Physicians say, "Someone should write a book on this!". In an effort to reach out to as many Physicians as possible who share a similar concern, it gives me great honor to introduce to you, "Meaningful Use Guide for Physicians". In May of 2014, CMS announced that more than half of the eligible health care providers have been paid under the EHR Incentive Program. The advantages of implementing EHR/participating in the EHR incentive program are two-fold: Financial Benefits: 1) Billions of dollars are available in incentive payments for eligible professionals in the U.S. 2) Every Physician has the opportunity to receive up to \$44,000 - \$64,000 for achieving Meaningful Use before 2016 3) In May of 2014, CMS announced that more than half of the eligible health care providers have been paid under the EHR Incentive Program. 4) Starting in 2016, there will be mandatory reductions in Medicare payments to eligible professionals who have not implemented EHR. Non-Financial Benefits: 1) Improve quality, safety and efficiency of health care. 2) Promotes patient engagement via patient health records program (PHR) and improved care coordination by creating patient portals. 3) Promotes patient privacy and secure exchange of health information. In this book, I have addressed topics such as Obama Care, HITECH ACT, Meaningful Use, EHR incentive program along with its implementation, patient engagement, patient portals, HIPAA Security Compliance, CMS deadlines, CMS reporting periods, CMS audits, and challenges/solutions to Meaningful Use (MU) in Practices. The goal of this book, "Meaningful Use Guide for Physicians", is as follows: To help Physicians understand the concept of Meaningful Use along with the repercussions of not implementing EHR, to help understand both the financial as well as the non-financial benefits of participating in the EHR incentive program, and most important of all, to help physicians understand how the concept of Meaningful Use benefits not only Physicians but patients as well. Finally, I have gone one step further in "Meaningful Use Guide for Physicians" by advising an action plan for both initiation and sustainment of Meaningful Use.
