**A Behavioral Theory of the Firm** Richard Michael Cyert, James G. March

"A Behavioral Theory of the Firm" has become a classic work in organizational theory, and is one of the most significant contributions to theory intended to improve the operation of the modern corporation. The authors use experiments and empirical observations to build their model of decision making. They reject the structure of the firm as represented by classical economic theory, instead they focus on the discretion of management. They also offer a new way of viewing the effects of organization, communications and individuals on the firm's overall activity. This is path breaking book and among the most important and provocative interpretations yet advanced for seeing inside the firm to understand it as an organization and an economic entity.
