Linear Programming with MATLAB (MPS-SIAM Series on Optimization)

Michael C. Ferris, Olvi L. Mangasarian, Stephen J. Wright

Linear Programming with MATLAB (MPS-SIAM Series on Optimization)

Michael C. Ferris, Olvi L. Mangasarian, Stephen J. Wright

Linear Programming with MATLAB (MPS-SIAM Series on Optimization) Michael C. Ferris, Olvi L. Mangasarian, Stephen J. Wright

This textbook provides a self-contained introduction to linear programming using MATLAB® software to elucidate the development of algorithms and theory. Early chapters cover linear algebra basics, the simplex method, duality, the solving of large linear problems, sensitivity analysis, and parametric linear programming. In later chapters, the authors discuss quadratic programming, linear complementarity, interior-point methods, and selected applications of linear programming to approximation and classification problems. Exercises are interwoven with the theory presented in each chapter, and two appendices provide additional information on linear algebra, convexity, nonlinear functions, and on available MATLAB commands, respectively. Readers can access MATLAB codes and associated mex files at a Web site maintained by the authors. Only a basic knowledge of linear algebra and calculus is required to understand this textbook, which is geared toward junior and senior-level undergraduate students, first-year graduate students, and researchers unfamiliar with linear programming.

From reader reviews:

Bertha Montes:

A lot of people always spent all their free time to vacation or even go to the outside with them household or their friend. Were you aware? Many a lot of people spent they free time just watching TV, or playing video games all day long. If you wish to try to find a new activity honestly, that is look different you can read any book. It is really fun for you. If you enjoy the book you read you can spent the whole day to reading a reserve. The book Linear Programming with MATLAB (MPS-SIAM Series on Optimization) it is quite good to read. There are a lot of people who recommended this book. These were enjoying reading this book. Should you did not have enough space bringing this book you can buy the actual e-book. You can m0ore easily to read this book from the smart phone. The price is not too costly but this book offers high quality.

Donald Corbett:

Reading a book to become new life style in this 12 months; every people loves to study a book. When you learn a book you can get a lot of benefit. When you read books, you can improve your knowledge, mainly because book has a lot of information on it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your research, you can read education books, but if you want to entertain yourself you are able to a fiction books, this kind of us novel, comics, in addition to soon. The Linear Programming with MATLAB (MPS-SIAM Series on Optimization) will give you new experience in examining a book.

Flora Gordon:

In this period globalization it is important to someone to receive information. The information will make you to definitely understand the condition of the world. The fitness of the world makes the information easier to share. You can find a lot of sources to get information example: internet, newspaper, book, and soon. You can observe that now, a lot of publisher this print many kinds of book. Typically the book that recommended for you is Linear Programming with MATLAB (MPS-SIAM Series on Optimization) this e-book consist a lot of the information of the condition of this world now. This specific book was represented how does the world has grown up. The terminology styles that writer require to explain it is easy to understand. Typically the writer made some exploration when he makes this book. This is why this book appropriate all of you.

Hattie Adkins:

Many people spending their time period by playing outside having friends, fun activity with family or just watching TV 24 hours a day. You can have new activity to pay your whole day by examining a book. Ugh, ya think reading a book can really hard because you have to use the book everywhere? It alright you can have the e-book, getting everywhere you want in your Cell phone. Like Linear Programming with MATLAB (MPS-SIAM Series on Optimization) which is getting the e-book version. So , why not try out this book? Let's see.
