Statistical Models for the Social and Behavioral Sciences

James H. Dwyer

Statistical Models for the Social and Behavioral Sciences James H. Dwyer

Structural equation models are the subject of this book. Chapters 1 through 7 recast the material covered in basic statistic courses in the language and logic of structural equation models. Chapters 8 generalizes regression models to the multivariate case. Chapter 9 develops linear equation models of flawed measurement (multiple indicator models). Chapter 10 combines and extends the models to the general structural equation model. Chapter 11 demonstrates the application of structural equation modeling to casual inference from longitudinal designs.
