The Dreyfus Affair in French Society and Politics Eric Cahm

The Dreyfus affair remains one of the most famous miscarriages of justice in modern times. Eric Cahm's study does justice to the human drama, whilst also throwing light on the wider society and politics of the Third Republic in the traumatic years after the Franco-Prussian War. This wide-ranging survey - the only short modern account in English anchors the Affair in its full social and political context. Organised round a narrative of events, it offers portraits of all the main characters, substantial extracts from key sources in fresh translations, a comprehensive bibliography and a detailed chronology.
