Aurelia Fridell is a freak amongst her own kind, the only werewolf who can't shift.

Her family loves and accepts her, but the other packs treat her as if she were a flea-ridden stray, even though she's the Pack Alpha's daughter. She's made peace with her rank, but lately, the hair on the back of her neck raises at odd times, and she thinks someone is following her. She dismisses the thoughts and the fact that her headaches are getting worse.

Then her tires get slashed, her house gets broken into, and the only person she can trust turns out to be the one man who doesn't want her.

Ceithin Starkley came to Connecticut for one thing, and one thing only: to get Henrikki Fridell off his back about joining his ironworking company. He figures he'll get in, look at the job, then turn down the offer so he can head back home. Only his plan isn't so simple once he gets a whiff of Aurelia and his wolf won't let him leave while she's in danger. Now all he has to do is send his girlfriend home, woo Aurelia, and fight off her over-protective brothers to prove he's a worthy male.

Easy, right?

But when Aurelia's stalker escalates and kidnaps her, Ceithin must work with Aurelia's family to rescue her from a faceless enemy.

He's fought to ignore her, but now can't live without her. Will he find her before it's too late?

The clock is ticking.

Moon Bound:

After reading Fractured Moon, you know what happened to my mate, Aurelia Fridell. You were there with her. Here's what happened to the rest of us during the time she went missing.

This story is a companion to Fractured Moon, and is not a stand alone read. This novella contains major plot spoilers and should only be read after you finish reading about my mate's journey, and then you'll understand. You'll learn about Astrid, how we all coped, the hell Ville went through, and my intense struggle to free Aurelia from her mental prison.

This entire novella takes place during events in Fractured Moon - those two weeks of pure agony.

Moon Justice

After Aurelia Fridell's horrid torture in Fractured Moon, she travels with her mate Ceithin Starkley to Alaska to recuperate and learn all she needs to know to hone her new shape-shifting skills. The couple's peace is disturbed by hunters pleading with them to find out what kind of animal is killing their livestock. A hungry Kodiak seems to be the culprit, but not everything is what it seems.

New developments at home force Ceithin and Aurelia to abort their investigation, unwittingly leaving the Alaskan people to fend for themselves against an angry enemy while they return to Connecticut to thwart a madman planning revenge on the Fridell family. If they don't succeed, there will be horrendous consequences for all of mankind...
