## **Selling Put Options My Way** Jerry Lee

I must start by telling you that I have no 1-800 number, I am not trying to sell you any products, and am not inviting you to come to my house to view a cleaning agent. I will not try to sell you plastic bowls or any other “can’t miss” ideas. I do not sell recordings that promise you unlimited wealth, inner peace, or a flat stomach.

I am going to tell you the true story of how I have made a fortune, lost a fortune, and came back from the edge of disaster to prosper in the option market. I started with a modest amount of cash; also, I was lucky as I stumbled into the Internet bubble through accident and ignorance. Other than the school of hard knocks, I have no special talent or training in the stock market. My good and bad trades have been learned the hard way.

I will also tell you how I now invest, and how it might work for you. If you find that it does, great. We both will be winners. Once you read the book and start your own financial journey, I have no control as to whether or not you will follow my ideas. Your results might be different from mine. I hope better but maybe not. You alone must make the decision whether this strategy will fit your investment goals.

My method is not the only way to trade options and these ideas are definitely not the only way to sell puts. My methods are a way for the average investor to sell puts with some rules and guidelines. Just a few simple things to check each month, then make the trade and pocket some “free money.”
