In 2065, corporate sponsored governments jockey for supremacy in the biotechnical arena. Bullets and missiles take a back seat to cyber-enhanced soldiers and pulse weapons. In this extreme environment, only the most hardened body and mind can survive.

Calder McKenna was a failed experiment in the military's push for power. Now a special agent for the metro task force, he lives day by day trying to forget the ones that were lost... the ones that he could have saved.

When technology and humanity collide, Calder is forced to make desperate decisions, but how do you destroy the monster without becoming one yourself?
