Marine Corps Boot Camp is tough. It should be. Marines have been known as the President's Commandos, and toughness counts. This book looks on the lighter side of Marine Corps Boot Camp. In spite of the rigors of this three-month grind, quite a few humorous and amusing happenings take place. The stories in this book are from the Marines to whom these happenings occurred. Bob Taylor considers himself fortunate to have been a Leatherneck, a Gyrene, a Jungle Bunny, a Jarhead, or anyone of those names synonymous with members of the United States Marine Corps. After toughening out Officer Training at Quantico, Bob walked a lot of miles as an infantry platoon leader. One cold night in 1958, he found himself commander of a weapons platoon guarding the entrance to the airport in Beirut, Lebanon. That was when he asked himself, "Why not fly?" The Corps agreed, and sent him to US NAVAL FLIGHT TRAINING where he broke the bonds of earth and became a Naval Aviator, Marine Corps style. The mission of the Marine Corps since its inception on November 10, 1775 has been to be ready on a moment's notice to fight the US's battles. That they have done. Leathernecks serve on land, sea, and air; but to be one of those Leathernecks, each recruit must fight his or her way through a demanding Boot Camp. It's tough. Few qualify to go. Of those who qualify, less than 85 percent will graduate. The Corps only wants a few good men and women.
