**Afghanistan: A Cultural and Political History (Princeton Studies in Muslim Politics)** Thomas Barfield

*Afghanistan* traces the historic struggles and the changing nature of political authority in this volatile region of the world, from the Mughal Empire in the sixteenth century to the Taliban resurgence today. Thomas Barfield introduces readers to the bewildering diversity of tribal and ethnic groups in Afghanistan, explaining what unites them as Afghans despite the regional, cultural, and political differences that divide them. He shows how governing these peoples was relatively easy when power was concentrated in a small dynastic elite, but how this delicate political order broke down in the nineteenth and twentieth centuries when Afghanistan's rulers mobilized rural militias to expel first the British and later the Soviets. Armed insurgency proved remarkably successful against the foreign occupiers, but it also undermined the Afghan government's authority and rendered the country ever more difficult to govern as time passed. Barfield vividly describes how Afghanistan's armed factions plunged the country into a civil war, giving rise to clerical rule by the Taliban and Afghanistan's isolation from the world. He examines why the American invasion in the wake of September 11 toppled the Taliban so quickly, and how this easy victory lulled the United States into falsely believing that a viable state could be built just as easily.

*Afghanistan* is essential reading for anyone who wants to understand how a land conquered and ruled by foreign dynasties for more than a thousand years became the "graveyard of empires" for the British and Soviets, and what the United States must do to avoid a similar fate.
