The Death of Death: Engaging the Culture of Death With the Gospel of Christ Kyle McDanell

How should Christians think and engage the culture of death we now live in? Every day new challenges regarding abortion, euthanasia, infanticide, eugenics, and biotechnology force Christians to consider the conclusions of Christian theology and how to minister to those who are hurting. Typically, Christians articulate what they are against, but rarely show how the gospel offers a better way. This book seeks not only to help the average believer understand the many challenges of the culture of death, but also to show how the gospel informs our Christian worldview and how it offers hope even in a culture of blood like ours. Being a pro-life Christian means more than just voting for pro-life candidates and supporting pro-life causes. A pro-life Christian must also show the world the power of the gospel, the love of the Father, the peace of Christ, and the beauty of the local church. Christians must not just condemn the culture, but offer the grace of Christ that touches the lives of those in the culture. It is a call to understand the challenges of the culture of death and, at the same time, a call for Christians to actively seek the end of this culture that is consumed with blood.
