After more than sixty years of World War 2 indoctrination most people consider themselves knowledgeable about the events leading to and through this conflict. The most fascinating aspect of this compilation is the revelation that much of the victor's account of events is bunkum. The Battle for Europe unravels the victors' propaganda casts a new perspective on the great European tragedy of 1939 -1945. Contained in this work are insights and revelations you will not find anywhere else, dealing with the true origins of the conflict, Allied atrocities and cover-ups. A superb presentation which for the first time, tells the war from an objective viewpoint. Be prepared to be shocked at the level of duplicity, lies and propaganda on the conflict, battles, personalities and events of World War II. This new edition also contains a large number of rare photographs of the conflict, including those of German soldiers tortured to death by the "just Allies" and much more.
