Greek Life and Thought from Alexander to the Roman Conquest John Pentland Mahaffy

"By a sort of tacit consent the battle of Chaeronea is considered the minor limit of all that was good and perfect in Greek thought and life. The conquests of Alexander, the high culture of Rhodes and Alexandria, the profound thinking of the later schools, the deep learning, the splendid art, the multiform politics of Hellenism – all this is shut out from the schoolboy, as forming no part of the Greek he is to know, and it is but seldom taken up – with the exception of Theocritus – by those who preserve the habits and prejudices of school in their college life. (...) The proper ground for me to occupy is far higher. My conception of the Hellenistic world is that of a complex society containing almost all the features of our most modern life. The same problems, the same controversies, the same jealousies, were agitating men's minds then that agitate them now. Is it right or is it wrong for the historian of Hellenism to point out these analogies, and to illustrate the conflicts of that day by those which the modern reader can appreciate in the world around him?" - John Pentland Mahaffy
