Redis in Action

Josiah L. Carlson

Redis in Action Josiah L. Carlson

Summary

Redis in Action introduces Redis and walks you through examples that demonstrate how to use it effectively. You'll begin by getting Redis set up properly and then exploring the key-value model. Then, you'll dive into real use cases including simple caching, distributed ad targeting, and more. You'll learn how to scale Redis from small jobs to massive datasets. Experienced developers will appreciate chapters on clustering and internal scripting to make Redis easier to use.

About the Technology

When you need near-real-time access to a fast-moving data stream, key-value stores like Redis are the way to go. Redis expands on the key-value pattern by accepting a wide variety of data types, including hashes, strings, lists, and other structures. It provides lightning-fast operations on in-memory datasets, and also makes it easy to persist to disk on the fly. Plus, it's free and open source.

About this book

Redis in Action introduces Redis and the key-value model. You'll quickly dive into real use cases including simple caching, distributed ad targeting, and more. You'll learn how to scale Redis from small jobs to massive datasets and discover how to integrate with traditional RDBMS or other NoSQL stores. Experienced developers will appreciate the in-depth chapters on clustering and internal scripting.

Written for developers familiar with database concepts. No prior exposure to NoSQL database concepts nor to Redis itself is required. Appropriate for systems administrators comfortable with programming.

Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

What's Inside

- Redis from the ground up
- Preprocessing real-time data
- Managing in-memory datasets
- Pub/sub and configuration
- Persisting to disk

About the Author

Dr. Josiah L. Carlson is a seasoned database professional and an active contributor to the Redis community.

From reader reviews:

Walter Johnson:

Do you have favorite book? If you have, what is your favorite's book? Guide is very important thing for us to find out everything in the world. Each book has different aim or goal; it means that reserve has different type. Some people sense enjoy to spend their a chance to read a book. These are reading whatever they take because their hobby will be reading a book. What about the person who don't like reading a book? Sometime, individual feel need book whenever they found difficult problem or perhaps exercise. Well, probably you will want this Redis in Action.

Chris Barrentine:

Have you spare time for just a day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a move, shopping, or went to the particular Mall. How about open or maybe read a book eligible Redis in Action? Maybe it is for being best activity for you. You understand beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with their opinion or you have additional opinion?

Ronald Johnson:

The book Redis in Action can give more knowledge and information about everything you want. Why then must we leave the good thing like a book Redis in Action? A few of you have a different opinion about e-book. But one aim this book can give many information for us. It is absolutely suitable. Right now, try to closer along with your book. Knowledge or information that you take for that, you are able to give for each other; you may share all of these. Book Redis in Action has simple shape however you know: it has great and big function for you. You can seem the enormous world by start and read a publication. So it is very wonderful.

Billie Gallagher:

The reason why? Because this Redis in Action is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will shock you with the secret it inside. Reading this book beside it was fantastic author who have write the book in such incredible way makes the content within easier to understand, entertaining technique but still convey the meaning completely. So , it is good for you for not hesitating having this ever again or you going to regret it. This book will give you a lot of gains than the other book include such as help improving your proficiency and your critical thinking approach. So , still want to hold off having that book? If I have been you I will go to the book store hurriedly.
