You will be amazed at the amount of people making a full time living online in the US. There are people (ordinary just like you and me) making more in a month than some people do in a whole year. In this book I will show you tactics and strategies that people use to see this success. The key here is passive income. This means you input little to no effort and make money in doing so. Imagine lying down in a beach resort somewhere with your family, sipping on some nice champaign and just enjoying the moment. You'd think "Oh how wonderful that would be, but isn't it a bit out of my budget?" Ask yourselves what if you could do that all the while generating income at the same time. This is the exact idea of earning passive income. You don't work for the money. The money works for you This book is dedicated to every person who wants to leave the clutches of the corporate/working world and live a life of an entrepreneur. This means making real differences in the world, making money work for you instead of the other way around. I'm pretty sure most of you have had the thought come across you at least once in your life about leaving your day job. Let me show you how you can do that.
