Exploding Middle East Myths: 15 Years of Fighting Zionist Propaganda Greg Felton

For nearly 63 years, since its creation in 1948, the state of Israel has carefully controlled what the Western world knows about the Zionist state. As a result, what we have received from the mainstream media is reams of propaganda and little truth when it comes to the racist and bellicose state. Against this backdrop of censored "news," one gutsy journalist took a dangerous stand and instead has been telling the truth about Israel for the last 15 years. In this collection of powerful essays by Canadian writer and researcher Greg Felton, you'll see the real Israel: brutal treatment of Palestinians, blatant disregard for Christians and Muslims, and parasitic control over foreign governments, especially the U.S. Sure to make you smile and seethe at the same time, Felton's trademark wit and wisdom will guide you through carefully crafted propaganda, correcting the historical record along the way.
