**Six Figure Internet Marketing Company (How to Make Money Making Websites in 3 Days)** Dennis Eagle, Oliver Villegas

In July 2008, I began researching a way to increase revenues for my local businesses. Traditional advertising was failing and revenues were dropping like lead. I knew Internet technology was the direction I should take my marketing campaigns, or I would risk falling behind, unable to catch up again. The problem I faced was fear of an unknown learning curve and the expense of the project.

Those fears were soon quieted. Within six months, I discovered a secret formula that would allow my business to capture the number one search position in Google. In addition, I was listed six times on the first page, which gave the impression of domination. This goes with Zipf's law that says, "When faced with information overload, people will choose the one on top or the perceived winner." I appeared to be both and my internet sales increased 1007%.

Realizing that other local businesses could use this system of Message to Market Domination, I decided to take this to the street. We launched on December 1, 2009 and - after two weeks - had over \$60,000.00 in sales. Since cyberspace technology was continuing to advance at the speed of thought, I realized that businesses needed monthly support for adjusting to changes and staying current with new technology.

As a result, I added consulting in both marketing and sales plus webinar support, assisting clients to compete in today's rapid pace. In addition, I adjusted our system so that monthly maintenance was included with the Domination System.

The Domination System accesses three powerful forces that I refer to as Force Multipliers™ - a military term used for overthrowing and dominating a marked area or regime. When these three Force Multipliers™ converge into a larger, single system, it creates an exponential or magnified effect. Therefore, clients are able to dominate a niche market with a message to market match.

Today's business leader must understand that ignoring 21st Century Internet technology is akin to signing a death warrant for their business. No longer is it about who has the largest budget for advertising: the smaller, local business can now stand shoulder to shoulder with the giant branded companies.

The 21st Century has changed the rules of marketing and sales forever. Clients no longer shop and purchase as in the 1990's. This is a new day, a better day with better rules for entrepreneurs who want to fully enjoy life and business!

In the following pages, you will discover how you can have an expert presence online and double your income. You will learn how to take massive action by differentiating yourself so far beyond your competition that you become a category of one in your target niche market!

In addition, you will better understand how the 21st Century offers a new era of accelerated business growth and how you will quickly compel your target market to choose you and you every time over all your competition.
