The Truth of Things: Why the Judiciary Allows Money to Operate the Law Michael Pulse

This book shows the lack of ethics in both the legal society and the business world as only money is allowed to control the legal process and business exploits the individuals into less incomes. Thus fewer citizens will be able to afford legal actions to support their rights and will not be granted representation for their interest. The legal system allows itself to be bought based only on the personal interest a few have, and the power they use to control others. Mandating their way is the only process, yet personal ideology made into political mandates are no different than tyrants ruling all. The public has rights, which the legal society as a whole have avoided, to assure themselves more power and less competition.
