This work explores the evidence that holes in time may occur on a regular basis as a result of a strange phenomenon - the time storm. The author investigates the paranormal and discusses the idea that time travel is not only possible, but that time travellers may have already appeared amongst us. The book features: first hand reports of people who were transported hours, or even days across time and space; describes the typical features of a time storm incident; and explains why scientists believe time travel will soon be possible and how a time machine would work. It also looks at evidence that cases of alien abduction are actually time storm incidents and the links between near death experiences and time storms.
